SOURCE [REDACTED]

The Russians are building a submarine base in Swinoujscie (Swinemuende) on the western side of the ship channel going to Szczecin, approximately 1,000 meters from a ferry point. The base is known to the local population as a docking place for fishing boats. As of December 1952, work was reportedly underway on a tunnel under the ground and under water. All employees working on the project were sworn to secrecy when first hired.
